**The Promise of Community Action**

*Community Action changes people’s lives, embodies the spirit of hope, improves communities, and makes America a better place to live. We care about the entire community, and we are dedicated to helping people help themselves and each other.*
Your Vote is Your Voice.

When people in the United States think of voting they often think of participating in national presidential elections. However, city, county and state elections, as well as congressional races can be just as important as presidential elections. Local races in townships, villages and cities are often determined by just a few votes. Local elections can have a very large and more direct affect in our day-to-day lives.

If you sit on the sidelines during midterm or off-year elections, you have silenced your own voice. Important contests such as governor and mayoral races to city council and school board elections have a major impact on our communities.

“Local elections can affect school funding, property taxes, zoning, law enforcement, educational curriculum, city parks and recreation, local businesses, waste collection, sports arenas, public health, charity and benevolence, ...adult business zoning, marijuana laws, and many more aspects of our daily lives” says Dr. David Childs, Ph.D. Northern Kentucky University.

Your vote is your voice. Voting is a major component of a democratic society. To amplify your voice even more—run for a local office yourself!
Mission of Community Action
The Mission of the Community Action Partnership of Lake County is to reduce the causes and effects of poverty, promote self-sufficiency of families and individuals with low incomes and improve the standard of living in the Lake County service area by:

❖ Providing valuable education and training services to individuals and families.
❖ Providing affordable housing and energy assistance.
❖ Provide accessible and tailored business and development services.
❖ Advocating for the interests of individuals and families with low incomes.
❖ Supporting and coordinating services to other organizations.

HELPING PEOPLE.
CHANGING LIVES.

Letter from the
EXECUTIVE DIRECTOR/CEO

COLLABORATION IS THE NEW CURRENCY FOR NONPROFITS

Collaborations enriched every aspect of Community Action Partnership of Lake County this year. We joined with experts, volunteers, donors and staff from across the County and State to enhance services for Lake County individuals and families.

Building collaborations requires strong leadership, and depends on trust, communication, and a shared vision and purpose. Public-Private partnerships expanded the number of households that could receive energy efficiency measures making their homes comfortable, safe, and heating bills more affordable. Bank partners brought new services to unbanked people, taught financial education and helped many reopen accounts. Volunteer scientists created learning activities for Head Start children. Retired executives worked with staff to achieve best practices. Corporate volunteers rehabbed townhouses for veterans.

There is no such thing as a small donor or a small donation. Each contribution we receive builds on top of the last, fills a gap and helps a family become whole.

On behalf of the Board of Directors, our staff and myself, we thank everyone who has helped us help others.

“Alone we can do so little. Together we can do so much.” – Helen Keller

HELPING PEOPLE. CHANGING LIVES.
Community Action Partnership of Lake County (CAPOLC) is one of 1,100 agencies across the United States established under the Economic Opportunity Act of 1964 to fight America’s War on poverty.

For 56 years, CAPOLC has administered Low Income Home Energy Assistance Program (LIHEAP), Head Start Early Childhood Development Program, Youth and Family Services (self-sufficiency case management, emergency assistance, summer camp and a food pantry), Home Weatherization Assistance, Volunteer Programs, and Affordable Housing for low-income residents and military veterans.

In 2005, CAPOLC established and operated its first social enterprise, CAP Catering Services. CAPOLC now operates 3 social enterprise businesses in order to generate revenue and fulfill our mission. During the nineties, CAPOLC purchased 116 single and multi-family housing units to rent as affordable housing. Many single family homes bought by the agency were sold to low-income individuals and families as they became self-sufficient and more importantly, were ready to build assets for the future.

In 2013, CAPOLC established an independent Foundation to fundraise and secure private grant funding to ensure financial growth for the agency. Later that year, the Agency opened “Changing Lives” Upscale Resale Shop in Zion.

As new challenges arise in our communities, CAPOLC responds. Currently, the agency is transitioning 30 3-bedroom townhouses at Hervey Village in North Chicago, Illinois into permanent housing for homeless US Veterans with children. We have replaced Retired and Senior Volunteer Program (RSVP) with a broader volunteer program, and reinstituted Community Economic Development programs.

COMMUNITY ACTION PARTNERSHIP of LAKE COUNTY Continues Bold Local Initiatives to Support the Mission.
HEAD START MISSION STATEMENT

Head Start is organized to serve children and families with culturally and economically deprived social status by offering a program to provide early formal stages of the child’s educational experiences, basic health services, nutritional services, social services and parent engagement opportunities.

Head Start is an advocate to gain and protect the rights of children and the rights of those who provide love and care for children. It is a nurturing learning place for children and families. Head Start provides a place and an opportunity for people to speak out on community issues and express concerns affecting them and their children. Head Start establishes networking relationships with other child-centered organizations and collaborations with other providers to enhance economic and social opportunities for Head Start families by sharing applicable information and giving a head start to those who are a part of this program.

To accomplish this mission, Head Start has a firm commitment to use goal setting techniques, mutual trust and clearly defined standards of performance to produce the highest quality of work by its personnel.

The child’s entire family and the community must be involved. The strengths and unique experiences of each child should be developed. The family, which is the principal influence on the child’s development and life, must be a direct participant in the total program, including its growth and activities.

A work climate that fosters openness, personal fulfillment and use of everyone’s unique talents and responsibilities is essential to the accomplishments of our mission. These factors are necessary to meet the needs of families, parents, our community, our staff and our agency.
HEAD START OVERVIEW

Head Start is a national funded program that provides education, health, disability/mental health, nutrition and family support services to targeted low-income families with 3-5 year old children.

Education

Activities and goals are individualized according to each child’s needs. Areas of development includes: language, literacy, math, science, creative arts, social, emotional and physical development. Children learn to problem solve and are prepared to succeed in kindergarten. Parents are informed and consulted as their child’s first and primary teacher.

Disability/Mental Health

Head Start welcomes children with identified Individualized Education Programs (IEPs). These children will benefit from the individualized Head Start curriculum. Children can be dually enrolled in the local school district and Head Start.

Head Start has a mental health consultant who uses interns from Rosalind Franklin University to create Behavior Intervention Plans for our children, families and teachers.

Nutrition

Head Start children receive a daily well balanced diet according to standards set by the US Department of Agriculture. The staff Nutrition Coordinator consults with a Registered Dietician monthly regarding children with allergies, diet restrictions, who are overweight, and have special nutritional needs. Head Start children are taught family style serving and enjoy a monthly food experience activity.

Parent, Family & Community Engagement

Parent and family engagement in Head Start is about building relationships with families that support family well-being, strong relationships between parents and their children and ongoing learning and development for both parents and children.

The Parent, Family and Community Engagement (FCE) Framework is a road map for progress in achieving the kinds of outcomes that lead to positive and enduring change for children and families.

Head Start endeavors to strengthen and support fathers as responsible providers and care givers for children by focusing on enhancing the tools needed to strengthen their families. CAPOLC Head Start provides a Fatherhood Initiative Program that is scheduled monthly during evenings. The objective is for men to leave the program with increased self-esteem; be able to set realistic goals; improve interviewing skills for employment readiness; develop strategies for being better parents and stabilize the home environment for the Head Start child; and develop tools to face the challenges of family community, vocational and civic leadership.
HEAD START

SCHOOL READINESS STRATEGIES

VISION

♦ We provide services to families and children according to Head Start Criteria.

♦ We will keep staff focused through evaluation of self goals and values.

♦ We vision empowerment for our staff, parents and children through self-leaders, teamwork and affirmation.

♦ We motivate staff to create a climate of mutual trust and human values which takes precedence over individual power.

Educational Philosophy

Community Action Partnership of Lake County Head Start recognizes that each child is unique and different and should be treated with respect. These differences are valued will be considered as staff individualizes their plans to meet their educational needs.

The staff is highly trained and provides several different education experiences inside the classroom to adhere to all types of learning styles. The curriculum and assessment tool used reflects the School Readiness goals that have been created to meet the Illinois Early Learning Standards and the New Head Start Early Learning Outcomes Framework. The program strives to meet the needs of each child and advocate for parents to be their child’s first teacher.

Curriculum

The program uses The Creative Curriculum for Preschoolers, Fifth Edition (Five Volumes Only). The curriculum utilized is research based and is directly in alignment with the Illinois Early Learning Standards, the New Head Start Early Learning Outcomes Framework, and the Teaching Strategies Gold online assessment tool. Creative Curriculum sets the classrooms up using a center model and encourages children to learn in each center through exploration. All teaching staff is trained annually on the usage of Creative Curriculum.

Screenings

All children are screened using BRIGANCE Head Start III developmental screening to identify potential delays within the first 45 days of the child starting the program. Each child also receives a Hearing and Vision screening within the first 45 days of the child starting the program. Staff collaborate to observe children and then a DIAL 4 screening is completed before referring families to their local school district.

Assessments

The program provides an online assessment tool through the use of the Teaching Strategies Gold system. The assessment tool is used to track the progress of the children and compiles reports to share with parents that identify if children are progressing at the correct age level. The assessment tool measures social emotional, physical, language, cognitive, literacy, mathematics, and English language acquisition skills. The Teaching Strategies Gold system is also available to help with lesson planning and individualizing goals for each child.
HEAD START
TRANSITION ACTIVITIES

Community Action Partnership of Lake County Head Start encourages families to become lifelong educators and learners. It is the responsibility of each staff person to encourage and support the engagement of parents in all aspects of early childhood education services.

Community Action Partnership of Lake County Head Start provides a **Children Family Enrichment Program** for Head Start parents and children. The program encourages parents to work on strengthening areas of their child’s development by using items from the home, reading a book, or playing a game.

**GOALS**

- Contribute to the total development of the child (Social, Emotional, Nutritional, Educational, and Health).
- Give parents an opportunity to participate in the total program as volunteers and employees.
- Provide the first phase of educational background for children, including those with disabilities.

**VALUES**

- Respect
- Patience
- Flexibility
- Capacity to love/Care
- Loyalty
- Good Listener
- Willing to Learn
- Sharing
- Understanding

NEW

CULINARY ARTS WORKFORCE DEVELOPMENT & STAFFING PROGRAM

This job development program is for catering chefs, line chefs, cooks, pastry chefs, bakers, assistant kitchen managers and food & beverage managers.

Funded by Community Services Block Grant

NEW

The Small Business Incubator program seeks to move talented individuals from self-employment to small business owners. Incubator is located in the Genesee Business Center.

Funded by Community Action Partnership of Lake County.
Veterans Housing @Hervey provides housing and support services for US Military Veterans and their children. There is a special emphasis on Women Veterans with children.

The project’s goals are to provide stable housing for homeless and near homeless Veterans with children and to remove obstacles that are preventing these Veterans from receiving job benefits that will return them to self-sufficiency.

Community Action Veteran’s Council represents a cross-section of veteran advocates and is a part of the Community Action Foundation of Northern IL. Community Action Partnership of Lake County and the Foundation’s Veteran’s Council partnered with 35 veteran medical and social service organizations, veteran clubs, advocacy groups, and Great Lakes military personnel to provide housing assistance and support services to veteran families.

Volunteers with North Shore Gas’ Home and Honor program rehabbed townhouse units at Veterans Housing @ Hervey for the fourth consecutive year.

Additional townhouse units were rehabbed through the Veterans Cash Lottery Program sponsored by the Illinois Department of Veterans Affairs.

For the third year, Buckingham Foundation volunteer crews completed home repair projects for senior veterans at Hervey Village.

Community Action Partnership of Lake County Board of Directors hosts a private fundraising dinner to help fund veterans support services provided by the agency.

SOCIAL ENTERPRISES provide valuable training opportunities and supportive jobs for those who have been excluded from the traditional labor market. Additionally, profits generated through the enterprises help reduce the agency’s dependence on government funding.

CATERING FOR A PURPOSE

OUR STORY - History of CAP Catering Services

CAP Catering Services is Community Action Partnership of Lake County’s first social enterprise. It was established in 2005 when Community Action Partnership of Lake County opened its newly built administrative and Head Start facility on 4.43 acres at 1200 W. Glen Flora Avenue in Waukegan, Illinois.

The new building included a commercial kitchen for meal preparation and a 200-capacity multi-purpose room.

Within our first year, our event team began transforming the multi-purpose venue into beautiful spaces for all occasions.

CAP Catering Services began construction on Dining on Genesee our new 250-seat banquet venue and pop-up restaurant. The second location has expanded hours and services.

Community Action Partnership Catering

Our professional and devoted staff are experts at organizing & executing any and all types of events.

Service provides delicious food and courteous service at affordable prices.

We offer full-service off-site catering to local businesses and corporations for meetings as well as formal and casual dining and parties in the Lake County area.

https://www.capcateringservices.com
“Changing Lives” Upscale Resale Shop has a wide variety of merchandise such as: professional, formal and casual clothing for the entire family, business and home furniture, home décor, shoes, bath accessories, bedding, window coverings, artwork, books, toys, jewelry and more.

Most of our merchandise is gently used, but some items are donated directly from department stores. Our Shop occasionally carries designer and brand name clothing and accessories. Our gently used furniture ranges from vintage to high-end pieces, such as bedroom dressers and chests, end and side tables, living room sets, dinette sets, desks, bookcases, display cases, and children’s furniture.

CAPt-shirts & More is a social enterprise of Community Action Partnership of Lake County. When you shop at a non-profit social enterprise, your dollars are reinvested back into the local community.

Social Enterprises provide the same high-quality merchandise that you can find at for-profit on-line sites. Visit our website to view a sampling of tee shirts, conference materials, and promotional items that can be customized for your company, social clubs, groups and reunions.
Supporting Communities

Ice Miller is proud to support the Community Action Partnership of Lake County. Our law firm supports more than 100 nonprofit organizations throughout our region. We are proud to work together with the Community Action Partnership of Lake County to build dreams in our community.
